

Amendments to the Drawings:

Applicants appreciate the Examiner's suggestions during a telephone conference with applicants' representative on February 19, 2004. During this telephone conference the Examiner indicated that the amendments to Figure 1 submitted on December 11, 2003 would be acceptable provided that applicants included a reference numeral to the longitudinal bead. By way of this amendment, Figure 1 has been amended to include a reference number, 25, for the longitudinal bead. In addition, consistent with the telephone conference, the specification has been amended herein to provide a description for the added subject matter to Figure 1.
